

Organic coffee in compostable capsule

Novell are the first company in Spain to produce a 100% Compostable Coffee Capsule filled with 100% Organic Coffee to the following demanding standards:

Compostable Capsules, made with permitted materials according to European Law EN13432 with regard to compostable packaging.

Full degradation within a 4-12 weeks period.

Biobased Capsules. All the elements of the Capsule product are compostable (capsule, coffee, lid, adhesive).

Certified Compostable Capsule, made from natural renewable resources from corn.

The result – The perfect cup of environmentally friendly coffee.

All the compostable elements allow you to dispose of the capsule with your other organic waste in your composter with the knowledge you are doing your bit for the environment.

NOVELL
L'ESPRESSO

Using our vast knowledge and experience in the HoReCa market and our long history of buying, roasting and distributing coffee across the globe, we have now developed a 100% Compostable Organic Coffee Capsule, which carries the same quality organic coffee found in our beans.

The coffee that is used in the Novell Organic Compostable capsule is certified organic coffee by both the EU and the USA organic standards authority.

The process and cultivation is natural without using any chemicals, pesticides or herbicides. Allowing the user to ensure they have:
